**TITLE:**

***Unveiling the Digital Transformation for Business Excellence and Management***

**CALL FOR PAPERS**

Dear Colleagues,

Business Excellence and Management journal is pleased to announce the launch of a Special Issue entitled **Unveiling the Digital Transformation for Business Excellence and Management**.

We currently live in the technology era, where everything has a digital solution or software to be brought to the next level and so, the world has changed entirely along with the business sector and everything it means and contains. These new frontiers changed the way the business sector works, as enterprises get to excel and have competitive advantage mostly through the use of as much digital resources and software as possible and achieve higher performances than ever before.

The management in this era is also highly technologized and assisted by digital solutions that make the management process more effective, more data based, more calculated and with more accurate provisional strategies. Every component of the managerial process has nowadays software to get calibrated and/or defined, from human resources data bases to forecasts of needed budgeting, further strategy approaches to respond to the exogenous business environment and even digital solutions to manipulate data bases of stocks, financial processes and overall data bases for a company, such as the well-known digital solution SAP and many more on the specialized IT market.

Thus, the research topics of this Special Issue may include subjects on (but are not limited to): digital solutions for business success, IT technologies for management processes, data analysis and predictions through dedicated software, superior business performance due to use of IT technologies in companies, digital solutions and technological approaches of basic activities of the companies in the 4.0 society, risk management in the technological era, the impact of IT technologies on the economy, markets, finances, industries, people psychology, education, universities, social development, companies, governments etc.

We consider this subject of great interest as well as the research on this topic being very important. Thus, we strongly encourage researchers, professors, students, engineers, academics, and industry professionals from all over the world to present their current observations and analysis by submitting their research in our special issue. Qualitative and quantitative research, reviews, syntheses, and all other original research are welcomed.

Papers will be peer-reviewed and **accepted papers will be published on a continuous basis (as soon as accepted)** and listed together on the special issue page of the journal. **Authors have the option to plan their papers by sending a title and short abstract (about 150 words)** to the Editorial Team. Papers can be submitted to the following email address: [beman.journal@gmail.com](mailto:beman.journal@gmail.com).

Deadline for manuscripts submission – **30 September 2022**.

Our journal has **no APC or publication fee**.
